

# CITY OF ORLANDO

---

OFFICE OF  
**ROBERT F. STUART**  
CITY COMMISSIONER

September 24, 2008

Dear Residents and Business Owners,

The City of Orlando, in partnership with the Environmental Protection Agency (EPA), is continuing to move forward with the Lake Highland Redevelopment Project. Our priority has always been to develop a cleanup plan that will benefit both current and future residents and contribute to the long term social, economic and environmental health and vitality of this neighborhood and the City.

This precedent-setting transaction with numerous stakeholders invested in the cleanup and redevelopment has contributed to the complexity of the work that has led to both opportunities and challenges in developing a plan. However, the City is confident that together we will develop a cleanup plan that will meet the needs of our community and also serve as a model for other communities impacted by environmental cleanup issues.

Please join me, City Staff and representatives from the EPA for a Lake Highland Redevelopment Project update meeting on:

Wednesday, October 1<sup>st</sup>  
7 p.m.  
Lake Highland Preparatory School  
901 N. Highland Ave.  
Lakefront Room in the Guernsey Building  
Parking: Access parking through the main entrance on Marks St.

Again, our greatest priority is to work together with all the stakeholders to develop a cleanup plan that will benefit residents and contribute to the vitality of this neighborhood and the City.

Thank you and I look forward to seeing you on the 1<sup>st</sup>.

Sincerely,

A handwritten signature in black ink that reads "Robert F. Stuart".

Robert F. Stuart  
City of Orlando Commissioner, District 3
